### Captioner Video Feedback (Placement Control)

- ✓ **iCap Video** is licensed to your account which provides your captioner with quality low frame rate program video.
- ✓ Ensures placement compliance and gives you control over caption positioning on screen.
- ✓ Activated and accessed through standard iCap Captioner Software.

### Monitoring and Logging of Account Activity

- ✓ **Broadcast Monitor** provides live and historical views of all user and encoder activity on your account – including logins, program audio, caption data, and connection history
- ✓ Crucial tool for compliance reporting, ensuring accountability, and troubleshooting.
- ✓ Download Broadcast Monitor software [HERE](#)
- ✓ Activation instructions use can be found [HERE](#)

### Archiving of Live CC Data for Future Retrieval

- ✓ **iCap Archive Assembler** is accessed through our Cloud Services website [eegcloud.tv](http://eegcloud.tv)
- ✓ To access caption data: Create a free EEG Cloud Services account, access the Archive Assembler app, and enter details about your iCap account including the time period you want to pull caption data from.
- ✓ As-run program captions can be searched for downloaded as fully timed caption files.
