LEXI AD

AI-POWERED, FAST & COST-EFFECTIVE AUDIO DESCRIPTION

LEXI AD (Audio Description) helps video content owners expand audience reach and accessibility by making audio description faster, more affordable, and scalable. Unlike traditional human-generated workflows, LEXI AD reduces costs and turnaround times while enabling large-scale delivery.

Traditional human-generated audio descriptions are costly and time-intensive, limiting their feasibility for many organizations. Lexi AD revolutionizes the process by delivering automated, precise, and efficient audio descriptions up to 75% faster than manual methods—at a fraction of the cost.

Benefits

Affordable & Scalable
Reduce costs while generating audio descriptions with minimal effort.

Fast Turnaround
Receive descriptions up to 75% faster than manual methods.

Seamless Integration
Connect via API, S3, or FTP for bulk processing with minimal effort.

Customizable Output
Guide AI with video intros and instructions for tailored narration.

Secure, Self-Service Platform
Manage projects easily via a cloud-based interface.

Smart Face Detection
AI-powered identification enhances accuracy.

Who Can Benefit?

Broadcasters & Content Creators
Make your content accessible to all.

Education & Enterprise
Improve engagement and meet WCAG compliance.

Digital Archives
Make your content searchable and unlock valuable insights with AI-generated descriptions.

In a moonlit forest, a unicorn and wizard approach a woman with wild brown hair.
